

## About the Institutes

**NEFTU** : North East Frontier Technical University (NEFTU) was established in the year 2014 by the Government of Arunachal Pradesh under the NEFTU Act, 2014 (Act No. 6 of 2014). The University is recognized by the University Grants Commission (UGC) under Section 2(f) of the UGC Act, 1956. NEFTU was founded with the vision of providing quality higher education in the North-Eastern region and beyond, fostering innovation, research, and entrepreneurship among students. Located in Aalo (Along), West Siang District, Arunachal Pradesh, NEFTU offers students a serene and academically vibrant environment conducive to learning and holistic development. The University provides state-of-the-art infrastructure, modern laboratories, a well-equipped library, and digital learning resources to support academic excellence. NEFTU offers a wide range of programs across disciplines including Engineering & Technology, Management, Science, Law, Education, Pharmacy, Arts, Humanities, and Commerce. The University follows an outcome-based education framework aligned with national standards, ensuring students are industry-ready and globally competent. Committed to fostering innovation and entrepreneurship, NEFTU regularly organizes workshops, seminars, and intellectual property (IPR) awareness programs. The University encourages collaboration between academia and industry to enhance practical exposure and research opportunities for its students. With its focus on academic excellence, skill development, and social responsibility, NEFTU is emerging as one of the promising universities in the North-Eastern region of India, dedicated to nurturing professionals equipped to contribute meaningfully to national and global development.

## About the IQAC

The Internal Quality Assurance Cell (IQAC) of North East Frontier Technical University (NEFTU) was established in accordance with the guidelines of the National Assessment and Accreditation Council (NAAC) to develop a system for conscious, consistent, and catalytic improvement in the overall performance of the institution. The IQAC at NEFTU acts as a nodal agency for planning, guiding, and monitoring quality assurance and enhancement activities across all academic and administrative units. It plays a vital role in promoting a culture of excellence, innovation, and continuous improvement within the university.

## Vision

To ensure continuous improvement in the academic and administrative performance of NEFTU and to promote institutional quality enhancement through internalization of quality culture and best practices.

## Mission

To develop a system for quality assurance and sustenance in all spheres of academic and administrative performance.

To encourage participative management and promote stakeholder involvement in quality enhancement.

To ensure transparency, accountability, and effective governance in institutional functioning.

## Delivery

Offline Mode.

## About the workshop

The Intellectual Property Rights (IPR) Workshop organized by North East Frontier Technical University (NEFTU) aims to create awareness and enhance understanding of intellectual property among students, researchers, and faculty members.

The workshop focuses on fostering creativity, innovation, and the importance of protecting intellectual assets through proper legal frameworks.

## Objectives

- To create awareness among students, faculty, and researchers about the significance of Intellectual Property Rights in academia, industry, and entrepreneurship.
- To provide practical knowledge on the process of filing, protecting, and managing intellectual property.
- To encourage innovation and creativity by helping participants understand how IPR can safeguard their original ideas and inventions.
- To promote research and development culture within the university through intellectual property protection and commercialization.
- To strengthen collaboration between academia, industry, and government organizations in fostering innovation and entrepreneurship.
- To guide innovators and startups on leveraging IPR for technology transfer, funding opportunities, and business growth. To provide a comprehensive understanding of additive manufacturing technologies and their applications in modern industries.

## Topics Covered

- Introduction to Intellectual Property Rights (IPR) & National IPR Policy
- Patent Filing Process, Procedures & Prior Art Search
- Copyrights & Trademarks in the Digital Era: Procedures, Protection & Enforcement
- IP Commercialization, Licensing & Technology Transfer
- Case Studies from the North-East: Protecting Indigenous Knowledge & Traditional Practices
- Government Schemes, Support Mechanisms & IPR Facilitation for Startups and Institutions.
